

SUSSEX AT A GLANCE

Sussex  County
COMMUNITY COLLEGE

Start here, go anywhere!

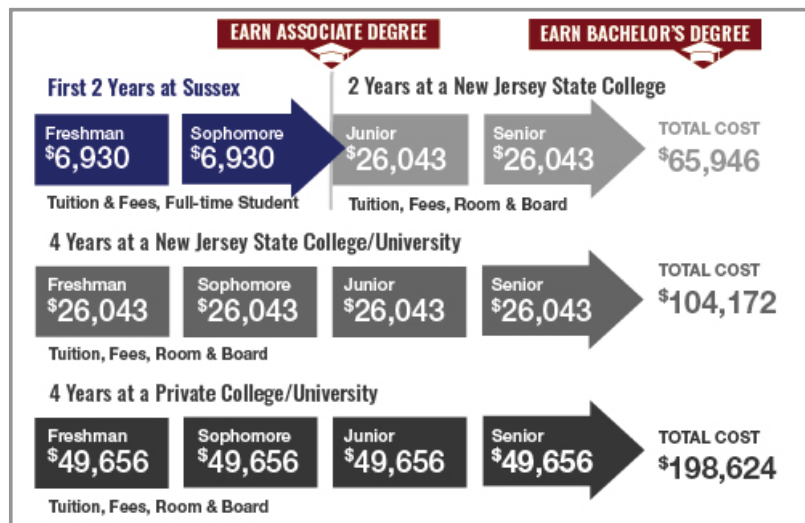

Make college AFFORDABLE

WHY SUSSEX?

Starting college is a new and exciting adventure. There is a lot that happens between the first day of class and graduation. The diverse academic offerings are led by talented faculty, and there is plenty of time to map out an educational plan for the future. Our vibrant campus atmosphere is the perfect setting to engage in college life. Let Sussex be the place where you begin your journey.

A SMART FINANCIAL DECISION

Make a smart financial decision and save thousands on the first two years of college. As a full-time student, you will pay well below the cost of a four-year college, giving you a substantial savings well into the future. See the financial savings comparison below.

HONORS PROGRAM

The Sussex Honors Program provides enriched educational experiences for self-motivated and exceptionally prepared students. Receive everything necessary to build upon an excellent academic profile with automatic admissions to these institutions.

EXPERIENCE a rich campus life

At Sussex, we provide an atmosphere that gives students the chance to grow and learn while forming strong bonds with students, faculty, and staff.

Build Relationships | Students thrive when building relationships with professors and the staff at Sussex, which is beneficial for academic support and networking. Connecting with friends can also give students a support system that makes the overall college experience more enjoyable.

Become a Leader | Resume enhancement occurs when students participate in leadership roles as student government officers, through clubs, athletics, and other organizations that foster engagement.

Get Assistance | Sussex is committed to helping students with their academic plan through graduation. Students receive a wide range of resources and support services such as academic advising, tutoring, and writing assistance. Explore these options to enhance learning and personal growth.

Get Involved | Cultural events take center stage during the semester with film festivals, theater performances, art receptions, lectures, trips, and more to keep students involved.

Strive for Success | Student success is linked to co-curricular learning. Academic, service, and professional organizations connect students to careers through social and volunteer opportunities. By joining a club, students can organize, lead, and participate on campus.

CAMPUS
ACTIVITIES

The Skylander spirit is thriving at Sussex!

Joining a sports team keeps the Skylanders' energy alive, on and off the field. Student-athletes benefit from learning teamwork, time management, and work ethic while building a solid academic foundation. Our athletic programs, some regionally-ranked, participate in the National Junior College Athletic Association.

Calling all fans!

Come out and cheer on the Skylanders during the season to show some college pride. It is an easy way to get involved on campus!

1. Connor Green

Enjoy this outdoor space for special events and activities. Set your sights on graduation when you walk across the Connor Green.

2. Library & Science Bldg.

Conduct your research in one of the labs or enjoy a quiet, peaceful place to study. The Library offers a large book and media collection to assist in your studies or for personal enjoyment.

9

7. Student Center, Campus Hub

You can visit the Campus Store, grab a bite to eat, play games or hang out in the Student Galleria. It's easy to join a club or engage in an abundance of activities with Campus Life.

8. Administration Bldg., Welcome Center

The Welcome Center is where you begin. You will find admissions, advising, registration, financial aid, and payment needs here.

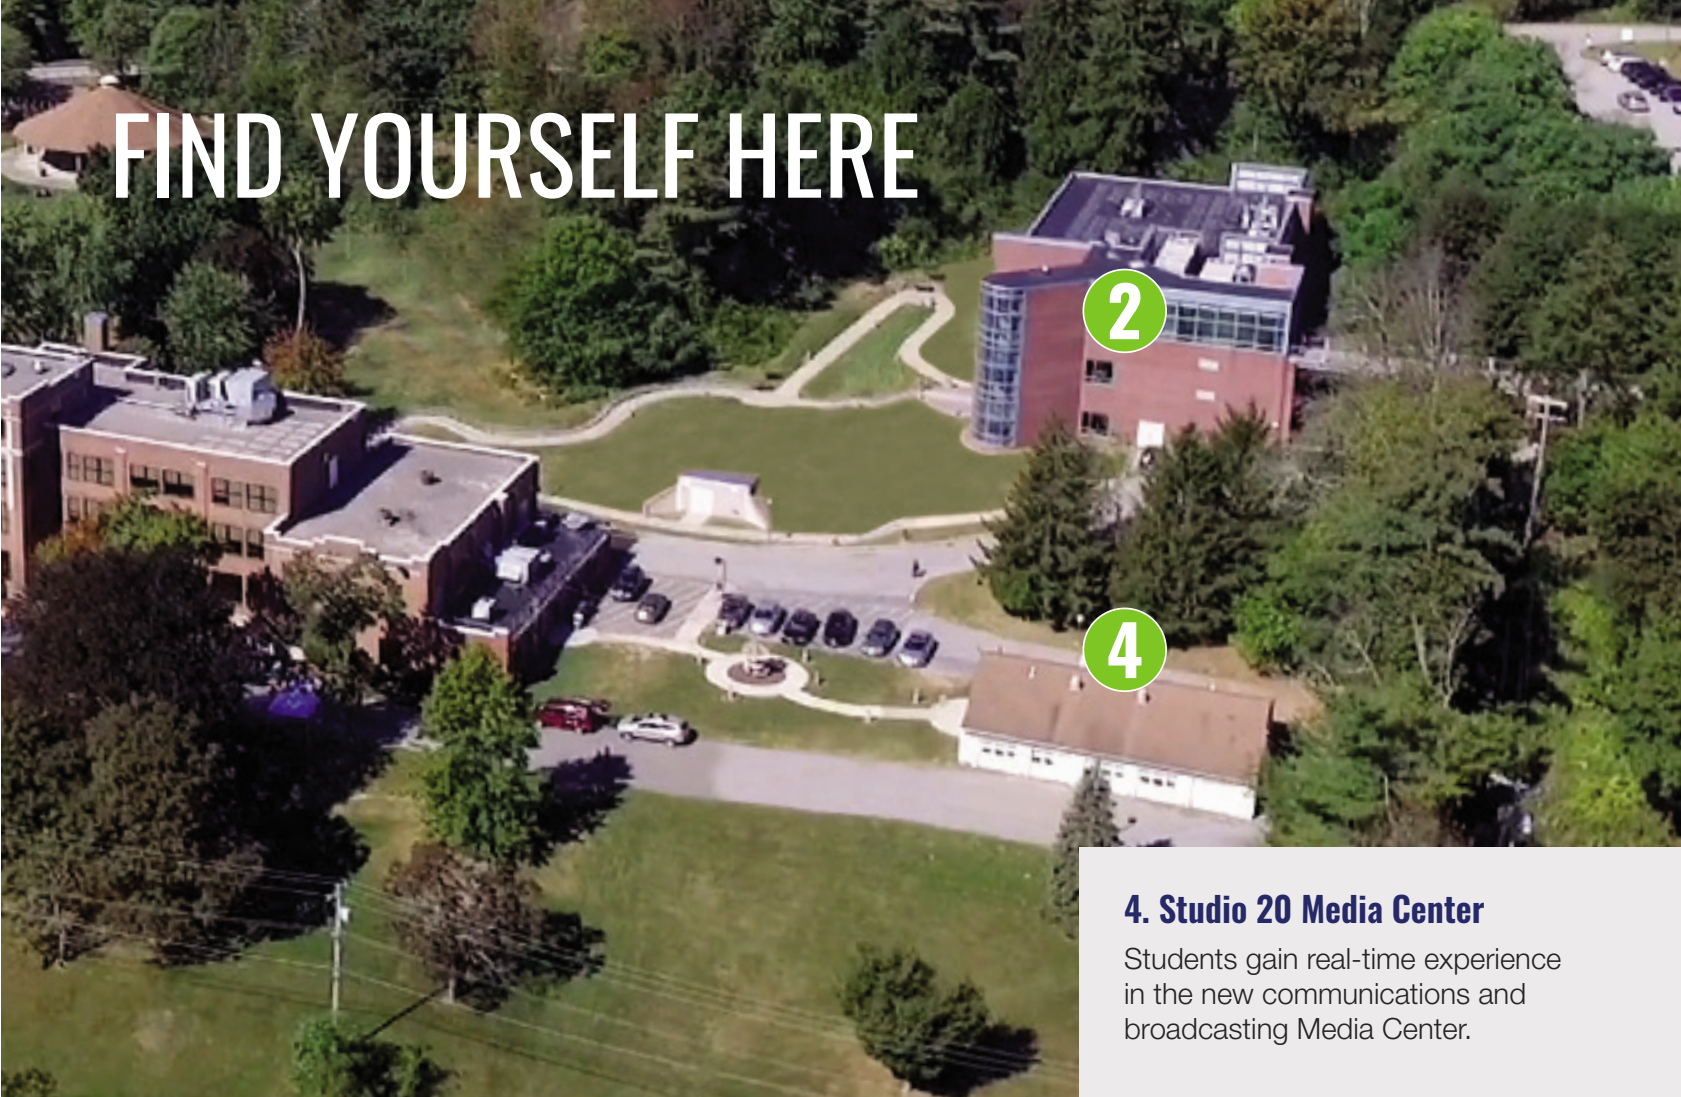

3. Academic & Athletics Bldg.

Classrooms, a Fitness Center and the Skylanders Athletics are located here. It's a great place for students to stay active and socialize between classes.

FIND YOURSELF HERE

4. Studio 20 Media Center

Students gain real-time experience in the new communications and broadcasting Media Center.

5. Athletic Fields

Be a part of the team or come out and cheer on the Skylanders at a home game.

6. Art Gallery

Local artists display their work in the Art Gallery with an opening reception to highlight the artist's event.

Student success stories

A student's college journey is a transformative period filled with learning, growth, and self-discovery. It provides a unique opportunity to gain knowledge, develop skills, and shape one's future.

Graduation marks the transition from student life to the next phase, whether entering the workforce, pursuing further education, or embarking on personal endeavors.

MELISSA - 2023 Sussex Graduate, attending East Stroudsburg University

"I moved to Sussex County four years ago when I turned 21. I was ready to continue my education and started at Sussex. I chose to pursue a degree in Human Services because I enjoy helping others and would love to give back to my community. My experience at Sussex has been absolutely amazing. The professors are so helpful and kind. They strive to see you succeed and will provide you with many resources to reach your full potential."

RANDALL - 2023 Sussex Graduate, attending Montclair University

"I love the environment at Sussex; it's a beautiful campus. The College was a great place to connect with so many people and it was the perfect networking opportunity for me. My advice to incoming students is to do what you love; you will always succeed if you have a passion for your pursuit. After graduation, I will transfer to Montclair State University to continue studying history."

FREDDIE - 2023 Sussex Graduate, attending NJIT

"At Sussex, you will always have a support group behind you throughout your education. The professors are very accommodating and will go out of their way to help you one-on-one to ensure that you understand the course material. I graduated with a Bachelor's in Engineering Science and will transfer to New Jersey Institute of Technology into the Civil Engineering program."

Samantha
2023 Sussex and
high school graduate,
transferring to Boston University

**Graduated high school and
college at the same time**

"I thoroughly enjoyed my time at Sussex. The students, staff, and professors were so supportive and did not treat me differently because I was also a high school student. Being a part of the Concurrent and Jump Start programs offered at my high school allowed me to graduate from high school and College at the same time. I am encouraging all my high school peers to participate in these classes while in high school because it's a great program, and it was easy to work with Sussex.

Being involved on campus in the theater program and as an Officer in the National Society of Leadership and Success helped me connect with other students. In addition, the friends that I made on campus gave me valuable advice during our study group. After graduating from Sussex County Community College in May and Sussex Technical High School in June, I will attend Boston University in the fall to attain my bachelor's degree in Biology - Cell Biology, Molecular Biology & Genetics Specialization with a dual degree in Mechanical Engineering."
